## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. Claims 1-27 are pending in this application.
2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-2 are rejected under 35 U.S.C. 103(a) as being unpatentable over Banauch et al (US 3,964,974).

Banauch et al disclose a composition of matter comprising a substrate and a tetrazolium salt. Also, Banauch et al disclose paper and cellulose as widely used substrate. Banauch et al further disclose the substrates are impregnated solutions containing glucose dehydrogenase, tetrazolium and a buffer system. See column 8, lines 14-61. Thus, Banauch et al disclose or suggest the composition of matter claimed except for describing the substrate as a bibulous substrate.

However, it is noted that persons having ordinary skill in this art routinely used paper or cellulose as a bibulous substrate in compositions of matter comprising water soluble tetrazolium. Additionally, Banauch et al disclose a composition of matter comprising a substrate and a tetrazolium salt. Note column 8, lines 14-61.

Hence, Banauch et al disclose or suggest the composition claimed except for describing the substrate in the composition of matter as a bibulous substrate. Yet, the

use of paper or cellulose as a bibulous substrate was well known in this art at the time this invention was made and Banauch et al disclosed the use of a composition of matter comprising a paper or cellulose substrate and a tetrazolium salt. Therefore, the Banauch et al disclosure renders obvious the composition of matter claimed.

It would have been obvious to one having ordinary skill in this art at the time this invention was made to provide a composition of matter as claimed because Banauch et al disclose or suggest the composition claimed except for describing the substrate in the composition of matter as a bibulous substrate, but, Banauch et al disclosed the use of a composition of matter comprising a paper or cellulose substrate and a tetrazolium salt and the use of paper or cellulose as a bibulous substrate was well known in this art at the time this invention was made which renders obvious the composition of matter claimed.

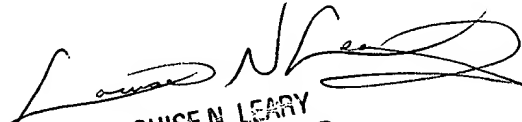

3. Claims 3-9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. Claims 10-27 are allowable over the prior art of record.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Louise N. Leary whose telephone number is (703) 308-3533. The examiner can normally be reached on Monday to Friday from 9:30 to 6 pm.
